The Jews Slaughter Of Baku, Nobel Oil And Tesla

In the port city of Baku the Nobel brothers from Sweden created the Baku oil boom in the year of 1873. Later in 1883 the Rothschild family and the Rockefeller's Standard Oil company arrived in Baku and started competition for control of Baku in Azerbaijan which was the worlds largest oil region of the day.

Rockefeller and Rothschild created a global monopoly on oil they divided up according to a mutual agreement between the two fellow Jews. Each agreed upon what markets for each to maintain control. This allows the Jewish elites to maintain global control over oil and the wealth from which gives them greater control, money and oil is power. This is the Jewish race following what the Torah and Talmud command the use of wealth to gain control over the Goyim nations and enslave them. Economic warfare.

The Jewish elites worked to destroy all competition and how they destroyed the Nobel Oil Company in Baku is revealing how far they will go to steal the wealth of the world.

When the Jewish elites kicked off the Communist revolution in Russia all paid for by Rothschild, Rockefeller, Schiff, Warburg and other Jewish elites. With Lenin being sent into St Petersburg by Warburg and Trotsky living on Rockefeller property in New York and being sent to Russia with massive amounts of Rockefeller money and even being released from prison in Canada with his money and passport given back to him on order of President Wilson on behalf of the Jewish moguls. The Rockefeller's also created the American Communist Party and ran it thought their fellow Jew Armand Hammer also a mogul of wealth. Interesting how all these wealthy capitalist Jews want Jewish Communism. The Rothschild's call themselves the Jewish Messiah in their Zionist writings in the 19th century. And they were behind the Judeo Mason organization The Communist League that Marx another Rabbinical Jew along with fellow "Red Rabbi" as Marx called him Moses Hess. Moses Hess himself a Zionist fanatic who wrote Zionism is about the Jews ruling the world from a future capital in Palestine. These two Jews Marx and Hess wrote the Communist Manifesto on orders from Leon Rothschild. The Jewish Messiah must conquer the world for the Jews in Judaism. So much for "atheist Jews" the Communist manifesto was wrote by Rabbi's on orders from the Jewish Messianic Dynasty of Rothschild. To fulfill the Jewish religion.

Lenin himself also Jewish the Russian achieves stated that Lenin was a practicing Jew and followed the Jewish rituals and customs and spoke Yiddish with his family. Why do you think Lenin and the Jewish Trotsky passed the "Anti-Semitism Act" as their first law which executed any Gentiles suspected of anti-Semitism towards Jews. Thousands of Russian's were murdered under this Jewish Act.

So it was on April of 1920 Lenin on order from Rockefeller and Rothschild elites attacked Baku and over ran the nation of Azerbaijan and massacred thousand of people within Baku along with the entire families of the Nobel company executives the engineers and main employees and the

oil field and refineries of Baku were destroyed thus destroying the Nobel company totally and allowing the Jewish elites to raise the price of oil and establish their monopoly. With the loss of Baku oil became more scarce and the prices went up.

Consider this in history J.P Morgan was a well known Rothschild stooge in America and part of the Rothschild cartel. It was Morgan who put Tesla out of business and removed free energy technology from reaching the world. This was on orders from Rothschild. They didn't slaughter Baku and the Nobel company because they wanted some maverick to then create free energy technology. Which when Tesla explained it to Morgan who realized its so easy to copy they could never control this technology for that long. So they destroyed it. After this they went on a campaign in their controlled fake news media and other outlets to break Tesla on every level and bar him from ever being able to become famous again or even pay the rent of his hotel room. They might have assassinated him later on as well from some claims.

J.P Morgan owned the White Star Line. And that was the company that owned the Titanic. Morgan invited all the major Gentile elites who lobby interest in America were stopping the Rothschild cartel from imposing the Federal Reserve Act. Morgan was supposed to be on the ship but claimed he was sick. He was found on a beach in Spain enjoying himself totally well by an American reporter. When that ship was sunk everyone who stood in the way of the Fed went to the bottom of the ocean along with Aster one of the worlds most wealthy men who was going to support Tesla with his money and influence. Aster was a Jew but when he stepped out of line he was liquated and after his death his vast fortune was divided up by the Rothschild cartel for themselves. The reason Aster was invited on that ship to be a victim of the worlds largest assassination plot was because OF TESLA and free energy. Its well known that Captain Smith rammed the Titanic into the iceberg on purpose the people who survived mentioned this. That is why Smith waited for two hours before sending out a distress call. There was supposed to be a ship waiting to pick everyone up. Smith thought this was basic insurance fraud. He was Jewed by Morgan. Smith probably didn't realize it was a high level assassination by the Rothschild cartel. When he realized the ship was not coming he panicked and sent off the SOS. The only reason anyone lived is because by chance another ship was in the area and caught the distress call and it still took quite awhile for them to arrive after the fact. However any White Star employees that survived were sworn to silence. Much of the crew jumped ship in Liverpool as they knew the ship was going to be sunk on purpose a common practice in those days for insurance fraud. They saw fires had been started in the coal chambers and kept going this was to blow open the sides of the ship at the right time and sink it.

National Socialist Germany on directions from Hitler and Himmler worked to created free energy technology to break this Jewish stranglehold on the global economy along with creating debt free independent National banking systems. That would put the global Rothschild cartel out of business for good. Churchill himself an agent of the Rothschild's stated it was this act of liberating Germany from the global banking cartel that caused the second world war against Hitler. The same reason the Jews slaughter Baku, destroyed Tesla and murdered everyone in the way of the Federal Reserve is the same reason they destroyed Germany in that war they started.

The Titanic was originally the Olympic the sister ship of the Titanic. Smith collided into a British warship by accident and caused major damage to the keel of the Olympic which caused it to lean to the left. The ship was already wasted money wise. They changed the name to Titanic and all the china that had Olympic' name on it was removed with Titanic. A junior office in the White Star line stated this fact in a letter he wrote. This is the other reason a lot of crew jumped ship in Liverpool. Ballard found the Titanic on the bottom on the ocean you can note the plates bearing Titanic have fallen off in parts and under neither them is Olympic. Under stress during the hearing into the Titanic the White Star executive kept calling it the Olympic. The learn on the Titanic how it learns in the images is due to the keel it was the Olympic

No need for past lives all the evidence is already there. Ballard's own statements on finding the Titanic was that it was a crime scene.

Now I can confidently summarize the Titanic and Tesla link with the JP Morgan fraud when people are interested to ask.

Was the insurance fraud such a common thing because ships of that caliber were still in the proto type status and prone to faults which could be exploited?

Thats my first impression.

What would be interesting is to hear the perspective of those who are documented to retain past life memories of the Titanic, as one child could remember his life as an engineering for the Titanic.

These people would ideally point in the direction of the conspirators when they get a vibe off of their personages, such as jew poo morgan.
